User has traveled 220 kilometers in total of 2 days.

Regardless of whether completed the 200 kilometers on the first day or only on the second day, User has a total 100 kilometers per day for the price of the daily fee, so the Service Provider will only charge an extra kilometers for the remaining 20 kilometers./

7.7.2 If there is a difference between the amount of per-minute charges (exceeding 24 hours) payable by the User on the basis of the time actually traveled for a trip exceeding 24 hours and the amount of daily fee for the new started day, the User will be refunded upon request.

7.7.3 The maximum daily fee includes the trip and waiting fees but does not include any additional fees (eg Airport fee, Lupa Beach fee, extra kilometer fee)

7.7.4 The User is obliged to pay the toll if he uses a highway outside the territory of Pest county. The Service Provider provides the annual Pest County highway vignette for all cars.

7.7.5 If the range of the vehicle is reduced to such an extent that it is not sufficient to return to the Limo zone, the User is entitled to refuel or recharge the vehicle. You can refuel a petrol-powered car at the Service Provider's expense with the type of fuel needed for the specific model. The plastic fuel card can be found in the designated card holder in the vehicle. Before starting the refueling, the User can request a PIN code for the fuel card at the Service Provider's Customer Service. The fuel card entitles the User to purchase solely at MOL Petrol Stations and only for EVO 95 type petrol. The maximum daily limit of the fuel card is 40 000 HUF, i.e. the User can use this amount per day. The User is obliged to reimburse the refueling fee in excess of this amount, the Service Provider is not liable. The fuel card can only be used to refuel a Limo car for which it is technically registered. The User is responsible for the loss or damage of the fuel card, he is obliged to compensate the Service Provider for the damage caused. In this case, Service provider is also entitled to charge the User the fee set out in Annex. 3 of this GTC. 7.7.6 It is the User's responsibility to rent a vehicle with a sufficient remaining range to return to the Limo zone via the Mobile Application in accordance with the provisions of these GTC - thus avoiding the possibility of the vehicle stopping on the way. Breach of this obligation constitutes a serious breach of contract. The Service Provider shall not be liable if the range of the car is reduced so much during the rental period that the User cannot bring the car back to the Limo zone.

7.7.7 If the User exceeds the maximum rental period specified in clause 7.1.4 without the permission of the Service Provider and does not return the vehicle to the Limo zone within the approved period, the Service Provider reserves the right to terminate the User's rental unilaterally at any time. The Service Provider shall also charge a fee for exceeding the maximum rental period set out in Annex 3.

7.7.8 The User is entitled to use the vehicle only in the territory of Hungary, if the User leaves the territory of the country with the vehicle, the Service Provider charges the User in accordance with point 7.1.4. the border crossing fee specified in Annex 3.

7.7.9 The user can put the vehicle on stopover as described in clause 7.1.23, if the User wants to pause the rental and does not want to finish it. If this is not done, the rental will be terminated by the Service Provider for security reasons as described in clause 7.1.23.

8. Data Privacy

8.1 The detailed provisions concerning the processing of the User’s data and the Privacy Policy are set out in Annex 1.

8.2 The Service Provider shall process the data made available by Users in line with the legal provisions – of the European Union, especially of the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation, hereinafter: GDPR) and Hungary – in effect at all times.

In respect of e-mails generated in line with the rules set out in the agreement, the Parties may not claim before any court or other authority that these fail to comply with the requirements of written documents issued on behalf of the Service Provider or the User, unless such an e-mail can be proven to have been used fraudulently or with some other unlawful intention.

10. Liability

10.1 Service Provider’s liability

10.1.1 The Service Provider shall not be held liable for consequences arising out of a User’s breach of the provisions of these GTC, including without limitation due to events that may be

associated with the improper use of the service or the provision of untrue data by the User, and with the User’s conduct and violation of the rules accepted by the User in the course of registration, etc.

10.1.2 The Service Provider shall be held liable solely for damage occurring due to the Service Provider’s gross negligence and/or wilful conduct, as follows.

10.1.3 The Service Provider shall not be held liable for any direct or indirect damage stemming from the use of the Service, unless it is the consequence of any gross negligence or wilful conduct attributable to the Service Provider.

10.1.4 The User may not be obliged to bear or refund any damage arising out of wilful conduct of the Service Provider and/or its representatives or staff in violation of the requirements set out in the GTC, and the Service Provider shall be liable for the occurrence of such damage.

10.1.5 The Service Provider shall be liable for damage arising out of the gross negligence (omission) of the Service Provider and/or its representatives or staff only if occurrence of the damage was foreseeable at the time of exercising such conduct (omission) and the conduct violates a substantial obligation stemming from the legal relationship existing between the User and the Service Provider.

For this purpose, all obligations assumed under the GTC and obligations the performance of which is absolutely necessary for the use of the car sharing service by the given User shall be deemed to be substantial. The limitation set out in this paragraph shall not be applicable to liability for culpable conduct that damages life and bodily health.

10.1.6 The Service Provider may not be obliged to bear or refund damage that may be attributed to circumstances outside its control if the occurrence of such damage was not foreseeable at the time of concluding the agreement.

10.1.7 The Service Provider may not be held liable for technical troubles, including without limitation any downtime in the internet or the GPS network.

10.1.8 The Service Provider shall not be liable for any damage arising out of the use, improper operation or the deletion of any part or contents of the Mobile Application or the Website.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

10.1.9 Compensation for damage by the Service provider shall not cover profit lost pursuant to the damage event and consequential damages. The limitation set out in this paragraph shall not be applicable to liability for culpable conduct that damages life and bodily health and to the damage caused due to the Service Provider’s wilful conduct.

10.2 User’s liability

10.2.1 Users shall be obliged to bear or refund - in particular, but not exclusively in the passenger car rented by the User - all damage arising out of any violation of the requirements set out in the GTC.

10.2.2 Users shall be relieved from liability if they prove that the breach of agreement was caused by a circumstance outside their control that could not be foreseen at the time of concluding the agreement, and they could not be expected to avoid that circumstance or prevent the damage.

The Users shall be also relieved from the costs of the damage by the amount covered by the Insurance Company.

The Service Provider or the owner of the vehicle is entitled to decide on the choice of the insurance and the insurance terms and conditions. The User is not entitled to reject their payment obligation due to the fact that the insurance terms and conditions have not been chosen with care or reason by the Service Provider.

Users shall be liable for the following in particular:

10.2.3 Users shall be liable for and shall warrant that they use the car sharing service only in a manner that fully complies with the requirements of proper use as well as the legal requirements and standards in effect at all times.

Thus especially – but not exclusively – the User, by using the Service, warrants that when using the Service he/she is in proper condition for driving and at the time of using the Service he/she possesses a valid driving license and to complete the rental of the vehicle in appropriate technical condition for the following Users.

The Service Provider expressly draws the User’s attention to the fact that, if the Insurance Company claims total damage of the car, due to the fact that it was damaged to an extent which requires total damage claim or it is economically unjustified to repair the car, it’s the User’s liability to cover the replacement value of the vehicle that has been claimed as total loss. The User is obliged to reimburse the amount to the Service Provider – as a prior principle – with the value of the replacement cost of the damaged car. On top of the reclaim paid by the Insurance Company and the value of the wreckage, the replacement cost is defined based on the Hungarian market value of a vehicle at least at the same age, equipment, technical condition and mileage.

The Service Provider is also entitled to claim other damages caused by the User (in particular: towing, administration and process fee).

The Service Provider expressly draws attention to the fact that the Insurance Company does not cover any damage caused during drunk driving. In such case the User is obliged to cover the entire damage and any additional costs incurred in this connection, not only for the Service Provider but to an additional third party as well.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

10.2.4 In the event that Users fail to check whether the passenger car rented by them is suitable for proper use, or pick up and use the passenger car in spite of detecting the passenger car’s unsuitability -especially but not exclusively in case of a puncture- for proper use, Users shall bear all risks arising out of the passenger car’s unsuitability for proper use and shall be liable for any damage arising out of the passenger car’s unsuitability for proper use.
The Users shall be held liable for a puncture if it was confirmedly caused by the User, in this case the Service Provider shall pay a tire repairing fee and a process fee according to Annex 3.

10.2.5 Users must notify the Service Provider via the Mobile Application about information implying that the previous User of the passenger car has used it in violation of the GTC, as well as any signs that the passenger car has been vandalised by third parties.

10.2.6 Users shall be liable for and shall warrant the proper use of the Mobile Application and the Website, in line with the GTC.
Users shall be liable for all damage arising out of improper use.
Users shall ensure the privacy of their User names and Passwords, comply with the provisions concerning notices, and shall warrant that the data provided by them are true.
The User may submit a modification request to the Service Provider no more than once per day on the registered data, which the Service Provider shall handle within 24 hours after the arrival of the request.

10.2.7 All costs, damage and other detrimental legal consequences arising out of termination applied by the Service Provider in the event of any violation of the requirements of the GTC shall be borne solely by the User who violated the GTC.

10.2.8 Users may not transfer their User Account or the rented passenger car to any third party, and may not allow third parties to use the passenger car rented. The passenger car may be driven solely by the User who concluded the Individual Rental Agreement. Users shall be liable

for all damage arising out of transfers their User Account or the rented passenger car to unauthorised persons, and shall be liable for paying the fee defined in Annex 3.

10.2.11 Users must immediately notify the Service Provider if their driving licence is withdrawn or becomes subject to any restriction. If a User’s driving licence is withdrawn or a court or competent authority imposes a prohibition of driving on a User, the Service Provider shall suspend that User’s User Account for the duration of the effect of such measure.

10.2.12 Users must duly lock and park the passenger car in the LIMO Zone when the maximum 72-hour rental period under the Individual Rental Agreement expires. Users must pay the Rental Fee and shall assume liability for damage until proper locking within the LIMO Zone.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

10.2.13 In the event that there is reason to transport the passenger car or to transport it back to the Service Area pursuant to damage to or failure of the passenger car, or pursuant to the User's conduct in violation of traffic rules, or because the Individual Rental Agreement expired outside the LIMO Zone for some reason, the User concerned must refund the Towing Cost and administrative charges to the Service Provider.

10.2.14 Users must pay any fine, fee, additional fee or any other cost (hereinafter: fine) imposed in connection with the violation of the rules of public road traffic by Users. The Service Provider will charge the amount of fines to the given User after receipt of the relevant resolution/decision, notice, warning or any other document requesting the payment of fine. Service Provider is entitled to charge the fine to User also in the case, and cannot take into consideration the User's late notice – taken when the Service Provider has charged the fine for not appropriate parking to the User – that the he/she could not park the passenger car to another, appropriate place, because the User finished its trip with a range of less than 20 km and the passenger car did not appear afterwards as bookable in the Mobile Application. The fact that the User initially not parked the passenger car properly, forms the basis of charging of the fine to the User. The administration process regarding the fine depends on the proceedings of the competent authority.

10.2.15 Users must forthwith notify the police and the Service Provider if the passenger car becomes involved in a road accident. Users must wait for the police forces on the spot. The event, the circumstances of the event and the damage incurred shall be detailed in minutes. The Users must fill out the insurance claim statement on site at the road accident. If for any reason that is not possible, the User shall fill out the form within 5 calendar days from receiving the form from the Service Provider. The Users shall send back to the Service Provider the insurance claim statement in a pre-agreed form, with the signature of the User. If the User does not send back to the Service Provider the completed, signed insurance claim statement, the User shall pay a “penalty of delaying the insurance administration” according to Annex 3.

10.2.16 In the event that the person who caused damage to the passenger car during the term of the Individual Rental Agreement concluded by a User pays damages to that User, that User must pay it to the Service Provider as damages, by wire transfer. Payment of these damages to the Service Provider shall not mean that the Service Provider may not claim damage incurred in excess of that amount from that User.

11. Termination of Framework Agreement

11.1 Users may request deletion of their User Account and thereby terminate the Framework Agreement in writing, without having to give reasons. The Framework Agreement shall be terminated with the deletion of the User Account. The other party shall be notified of termination by e-mail or in writing by registered mail with advice of delivery.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

The Service Provider may terminate the Framework Agreement in writing, with a notice period of 30 days, without having to give reasons. The Framework Agreement shall be terminated when the notice period expires.

The other party shall be notified of termination by e-mail or in writing by registered mail with advice of delivery.

The Service Provider shall delete the User's User Account on the date when the Framework Agreement is terminated.

11.2 In the event of the occurrence of events set out in this paragraph, the Service Provider may terminate the Framework Agreement even with immediate effect, without having to pay damages (hereinafter: immediate termination):

- a) Any statement or conduct/action by the User infringes the Service Provider's good reputation or business integrity,
- b) The User violates any obligation set out in the agreement (in these GTC), especially, but not exclusively, if the User provides incorrect information about the User Account. In case of immediate termination by the Service Provider, the Parties shall settle accounts with each other regarding the service provided until the effective date of termination, including the breach of agreement and its consequences.

In the event of immediate termination, the Service Provider reserves the right to enforce its rights stemming from the breach of agreement, including the right to compensation for damages.

11.3 The Service Provider will notify the User concerned about immediate termination in writing, in e-mail or by registered mail with advice of delivery. The notice mentioned in this paragraph shall include the name of the User concerned, the reason for termination, the provision of the GTC violated by the User, a short description of the breaching conduct, and the date when the Framework Agreement will be terminated.

11.4 In the event of immediate termination by the Service Provider, all Individual Rental Agreements concluded on the basis of the Framework Agreement shall be terminated as of the time when the termination is communicated, the Service Provider will delete the User's User Account and – based on the Service Provider's individual decision – may put the User on the List of Users in Default for a period defined at the time of the termination.

11.5 Users put on the List of Users in Default by the Service Provider may not conclude new Framework Agreements with the Service Provider. Users may request to be deleted from the List of Users in Default in a separate written letter sent to the Customer Service's mailing address by registered mail with advice of delivery. The Service Provider shall notify the User in writing about its decision concerning the request within thirty (30) days. The Service Provider need not provide the reasons for its decision.

11.6 In the event that a User requests that the Service Provider delete his data, the agreement will be terminated on the day when the request for data deletion is received.

In case of any discrepancies between the two versions, the Hungarian version shall prevail.

11.7 Notices of termination sent by e-mail according to this section shall be governed by the provisions of section 9 “Notices sent electronically”.

12. Complaints handling, customer service

12.1 Users may contact the Customer Service with their complaints, orally or in writing, using the Customer Service’s mailing or e-mail address or its telephone number.

12.2 If Users submit complaints to the Customer Service orally, the Customer Service shall record the complaint in minutes and hand over a copy of the minutes to the User in person or, in the case of complaints submitted by phone, deliver it to the User at the time of sending the answer to the complaint.

12.3 The minutes taken of the complaint shall contain the following:

- a) Name and address of the user,
- b) the place, time and manner of submitting the complaint,
- c) detailed description of the User’s complaint, list of documents and other evidence presented by the consumer,
- d) a statement from the business on its position concerning the User’s complaint if it is possible to investigate the complaint immediately,
- e) signatures of the person recording the minutes and of the User, except for oral complaints communicated by phone or other electronic communications services, f) place and time of recording the minutes,
- g) unique identification number of the complaint for oral complaints communicated by phone or other electronic communications services.

12.4 The Service Provider shall operate a call centre during the operation of which phone calls conducted with customer service shall be recorded in order to enable the Service Provider to credibly reconstruct events in the case of a consumer dispute.

In the event that a User speaks rudely, uses obscene phrases, offends the customer service staff member or the Service Provider, the Service Provider may terminate the call.

12.5 The Service Provider shall send its answer regarding the substance of the complaint to the User by e-mail or in writing by registered mail within thirty (30) days. The Service Provider must provide reasons for decisions rejecting the complaint.

12.6 The Service Provider must safeguard the complaint or the minutes recorded of the complaint and a copy of the answer regarding the substance of the complaint for 3 (three) years, and present them if requested by the authorities auditing such items.

12.7 In the event of customer disputes, Users may contact the arbitration boards having competence at the User’s place of permanent or temporary residence. 12.8 In the event that the complaint is rejected, the Service Provider must inform Users in writing about the authority or arbitration board where a procedure may be initiated concerning the complaint, subject to the complaint’s nature. Furthermore, the information thus provided must contain the seat, phone and internet contact details and mailing addresses of the competent authority and/or the arbitration board having competence at the consumer’s place of permanent or temporary residence. 14.4 Prices, fees, terms of payment

14.4.1 Prices, fees

The applicable price list for the Corporate Customer is attached to the Business Framework Agreement.

14.4.2 Settlement

According to the business framework agreement, the corporate customer pays to the service provider on a monthly basis. The service provider will provide the corporate customer with a monthly billing summary of services for the current period and send it by e-mail to its contractual contact specified in the business framework agreement. The service provider prepares an itemized statement for the settlement summary which includes the basic fees and other fees (such as fines) charged during the transactions related to the given accounting period.

Business users will not receive an invoice for the service but a "travel summary" of the use of the service by e-mail following the trip. The travel summary is a non-tax document certifying the use of the service.

The invoice will be issued by the service provider every month. Pursuant to section 164 of act cxxvii of 2007 on the value added tax service provider will issue a collective invoice for performance every month within 15 days following the reference period.

14.4.3 Electronic invoicing

The billing method for a Business Client is electronic invoicing, which is transmitted by the Service Provider electronically to the Corporate Customer. An electronic invoice is issued by the Service Provider under the Act on VAT and the applicable regulations. Service Provider sends the e-invoice to the email address stipulated by the Corporate Customer in the Business Framework Agreement. The e-invoice sent to the email address specified by the Corporate Customer is deemed to be accepted by the Business Client on the fifth day from posting in the event that the Business Client does not receive the contrary written information.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

The Business Client is responsible for notifying the Service Provider on the info@mollimo.hu e-mail address within 10 days from the date of occurrence if the e-mail address changes.

The e-invoice issued by the service provider corresponds to the applicable Act on VAT and includes any attachments to the invoice. The Corporate Customer is obliged to ensure that the retention of the e-invoices is kept on an ongoing basis, in a manner that excludes their subsequent modification and protects them against deletion, destruction or damage and excludes unauthorised access. In the event that the provider's electronic mail system fails (technical obstruction) and the sending or receiving of an e-invoice is impossible, the invoice will be issued on paper. The fact of technical obstruction shall be communicated immediately by the Party concerned after its detection to the other party via the contact points stipulated in the contract. Once the technical obstruction has ceased, the parties will return to e-invoicing again.

14.4.4 Payment Delay

Should the Party having payment obligation under the contract fail to settle any amount due to the other Party at the due date, it is regarded as late payment. For the period of the payment delay, that is from the first day of the delay to the day of actual payment of the amount overdue, the defaulting Party shall pay default interest according to the Hungarian Civil Code.

The Party in delay shall pay the accumulated default interest to the other Party in 8 days upon receipt of the demand letter. The default interest shall be calculated by the Parties on the basis of the actual number of days of the delay and considering 360 days per year.

The default interest shall be paid in the same currency as the currency of the overdue amount set out in the payment terms of the contract.

14.5 Complaints

The Business Client may make any complaints about the use of the service within 30 days of the date of the summary document containing the item complained. The limitation period is 30 days. A claim of the Business Client may be addressed by telephone, letter or e-mail to the Corporate Customer's contact point stipulated in the Corporate Framework Agreement. The Service Provider shall reply in writing within 30 working days of receipt of the written notice. The answer does not necessarily mean the closure of the complaint. In case of a claim, both the Business Client and the Service Provider are required to present certified copies of the relevant documents or if it is necessary, its original version. The fact of the complaint does not exempt the Business Client from its payment obligations to the Service Provider. If the liability of the Service Provider is determined as a result of the complaint, the Business Client is entitled to get refund.

Model information on liability for defects, product warranty and guarantee

1. Liability for defects

Which are the cases in which we shall be held liable for defects?

In case of defective performance by the Service Provider, the customer may assert liability claims according to the provisions of the [Hungarian Civil Code](#).

What rights can you enforce based on our liability for defects?

You may raise the following claims, according to your choice:

You may request that the Product be repaired or replaced, except if compliance with the chosen right is impossible or it results in disproportionate expenses on the part of the business as compared to the alternative remedy. If you did not or could not request a repair or replacement, you may claim a pro rata reduction of the price paid or have the defect repaired yourself or have it repaired at the cost of the business, or – ultimately – withdraw from the contract.

You may switch between your rights under liability for defects but you shall bear the cost of that switch, unless it was justified or done for a reason due to our business.

What is the deadline for enforcing claims for liability for defects?

You shall give notice of the defect immediately after becoming aware of it but no later than within two months of becoming aware of the defect. Please note that you may not enforce any rights concerning our liability for defects after a period of two years from the date when the contract was performed. The deadline for second-hand items is maximum one year.

Who to enforce your claim against?

You may enforce your liability claims against the business.

What other conditions are there for enforcing such claims?

Other than giving notice of the defect, there are no other conditions for making claims for liability for defects within six months of delivery, provided you confirm that the product or service in question was delivered by the Service Provider. On the other hand, after six months from delivery, it will be up to you to prove that the defect detected by you already existed at the time of delivery.

2. Product warranty

In what cases may you exercise your product warranty rights?

In case of a defect of a movable object (product), you may – at your choice – exercise your right specified in clause 1 above or raise a product warranty claim.

What are your rights under a product warranty claim?

The only product warranty claims you may have are claims for repairing or replacing the defective products.

This is an unofficial, working translation of the „CARSHARING SZOLGÁLTATÁS IGÉNYBEVÉTELÉNEK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (GENERAL TERMS AND CONDITIONS FOR THE USE OF CAR SHARING SERVICES AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

When is a product deemed to be defective?

A product is deemed to be defective if it fails to comply with the quality requirements in effect at the time it is released to the market, or if it does not have the features included in the product description provided by the manufacturer.

What is the deadline for making product warranty claims?

You may make product warranty claims within two years of the date when the product is released to the market by the manufacturer. Your right will lapse after this deadline.

Who to make the claim against and what other conditions are there for making the claim?

You may make product warranty claims only against the manufacturer or distributor of movable objects. In case of making a claim under product warranty, you will have to prove that the product was defective.

When can the manufacturer (distributor) be relieved from its product warranty liability?

The manufacturer (distributor) shall be relieved from its product warranty liability only if it is able to prove that:

- it did not manufacture or distribute the product in the framework of its business activities, or
- the defect was unrecognisable using the technology available at the time of releasing the product to the market, or

- the defect of the product has arisen out of the application of legislation or a statutory requirement.

The manufacturer (distributor) needs to prove only one of these reasons to be relieved.

Please note that you may not make parallel claims for liability for defects and for product warranty on account of the same defect. However, if you successfully make a claim under product warranty, you may make claims for liability for defects in respect of the replaced product or repaired component.

[If the business must provide a guarantee under law or contract, the following item 3 also needs to be inserted in the information:]

3. Guarantee

In what cases may you exercise your guarantee rights?

In case of defective performance, provided that a guarantee obligation was stipulated in the contract, the Service Provider shall be liable for guarantee under the contract.

What are your rights under guarantee and what is the deadline for exercising them?

When will the business be relieved from its guarantee obligations?

The business will be relieved from guarantee obligations only if it proves that the reason for the defect occurred after delivery.

Please note that no claims under liability for defects and guarantee or, respectively, product warranty and guarantee may be made for the same defect or in parallel and at the same time; but other than that, you are entitled to the rights stemming from guarantee regardless of the rights specified in items 1 and 2.
