From 5th June 2019 MOL LIMO service is available at the Liszt Ferenc International Airport as well. The summary of the points of the GTC related to the expansion of the service are summarized below.

The changes are summarised as follows:

- 7.1.2: The Reservation Period changes from 2*20 minutes to 2*25 minutes.
- 7.2.11: The list of fees payable by User was extended with a penalty for improper use, loss or causing damage in the Liszt Ferenc International Airport parking plastic cards.
- 7.3.1: LIMO passenger cars can park in public area within the LIMO Zone or at a dedicated parking place defined in Annex 5 and Annex 6.
- 7.5: A new paragraph is added to these GTC, defining the conditions of the use of MOL LIMO to the Liszt Ferenc International Airport (hereinafter: Airport). If the User is traveling to or from the Airport with LIMO, the User must use the Service according to this 7.5 paragraph in accordance with all the other paragraph of these GTC.
- 7.5.1: Users shall start and finish the trip in the 15 dedicated parking spaces of the Holiday Parking Lite of the Liszt Ferenc International Airport, which are marked with painting and boards according to Annex 6.
- 7.5.2: Should the trip be terminated or started at the airport LIMO parking lot (Holiday Parking Lite), MOL LIMO charges airport convenience fee (1990 HUF) for the User, on top of the other costs of the certain trip.
- 7.5.3: At the Airport Area, User is fully responsible to act and behave according to the Airport Rules. It is User's liability to always be aware of the Airport Rules in force.
- 7.5.4: Users have to acknowledge that due diligence can be conducted when entering the Airport territory and the entering can be prohibited any time by the Airport security. The Service Provider shall not be liable if the Airport Security Service prohibits access to the Airport for the LIMO User.
- 7.5.5: The Users may not carry equipment, material, explosive, or highly flammable or hazardous materials (not even in closed cans) in the vehicle that endanger or interfere with the operation of the Airport.

For every LIMO vehicle based on the licence plate number a plastic card is technically assigned to assist exclusively the certain LIMO vehicle access to the Airport area. The plastic card is assigned to licence plate number, so it can only help the LIMO vehicle with the same licence plate number. The User shall be liable for improper use, loss or damage in the Airport parking plastic card, the Service Provider charges the User a penalty of 25000 HUF and a process fee in proven cases based on Annex 4.

- 7.5.8: If the dedicated 15 parking spaces are all occupied when the User arrives, than the other parking spaces (beside the dedicated 15 parking spaces) in the Holiday Parking Lite can be used by the User. These costs will be borne by the Service Provider. Users shall not use any other parking lot outside of the Holiday Parking Lite. If the User parks outside the Holiday Parking Lite, the User shall borne the costs. Also the Service Provider shall not be liable for the cost and the Service Provider doesn't accept or approve any parking fee charged by the User, if the User has terminated the trip in a parking lot other than the Holiday Parking Lite. The Service Provider shall not be liable if because of any GPS inaccuracy the User can terminate the trip in other parking lot as well via the application. If the User is ending the trip in a parking lot where it's forbidden in accordance with the GTC, the User is obliged to pay a process fee as well in accordance with Annex 4 of the GTC.
- 7.5.9: The Service Provider shall not be liable if the User claims to have missed the flight due to the MOL LIMO service. The User must follow the below mentioned principles to avoid unexpected events. The User shall check whether the plastic card -which is assigned to the vehicle- is in the glove compartment before starting a trip to the Airport. If the card is not available in the vehicle the User must notify the Customer Service. The User is obliged to start the trip to the Airport at the appropriate time and arrive at the Airport in time. The User must arrive at the airport in a reasonable time before the recommended time of arrival of the Airline selected by the User. The User must park the car in time and in line with the rules. It's the User's responsibility to rent a vehicle with the minimum distance of 50 km as required by the GTC, to avoid stopping on the road with the car. Violation of this obligation constitutes a material breach of the GTC. The User is only entitled to rent gasoline run passenger cars and may not choose an electric vehicle to the Airport. In case the passenger cars being technically malfunctioning on the way to the Airport (engine failure or any other malfunction due to repair or service, except the case when User rents the vehicle with less than 50 km range) the User must immediately notify the Customer Service and request assistance. In case the User wishes to start the trip from the Airport the LIMO vehicles can be booked two times in a row for 25 minutes. The Service Provider shall not be held liable in the event if the Users claim that they are unable to use the service because free Limo cars aren't available at the Airport.
- Annex 5: Holiday Parking Lite at Liszt Ferenc Airport has been added to the list of dedicated parking spaces.
