In case of any discrepancies between the two versions, the Hungarian version shall prevail.

7.1 Reservation, Opening and Use of the Motor Vehicles

7.1.1 The Service may be used after logging in to the User Account.

7.1.2 Users can reserve a motor vehicle in the Mobile Application. A given User can initiate a reservation for only one motor vehicle at a time. After reserving a motor vehicle, Users have 25 minutes (‘Reservation Period’) to open the motor vehicle (and thus conclude the respective Individual Rental Agreement). The Service Provider charges no fee for reservation. If the User fails to open the motor vehicle within the Reservation Period, the motor vehicle will be returned to open for booking status.

Where a User reserves the same passenger two times in sequence, but does not open the motor vehicle on either of those occasions using the Mobile Application, then they may not reserve the same motor vehicle for 120 minutes from making the second reservation.

7.1.2.1 Delivery of motor vehicle to site

The User will have the right to submit a request to the Service Provider to the effect whereby the Service Provider’s staff are to deliver the type of vehicle the User will have selected at their discretion from the Limo fleet to the location specified by the User. The user can submit this request through the customer service at least 24 hours before the planned delivery time, but at most 72 hours in advance. The User can request this service a maximum of once a week.

The Service Provider draws attention to the fact that the User’s need can only be confirmed and can be fulfilled if the current load and utilization of the Limo fleet allows it and the parking facilities are provided at the location specified by the User. If the Service Provider confirms the User’s request, the Service Provider will deliver the vehicle to the requested location as close as possible to the given address, depending on the available parking spaces. The User may contact the Service Provider’s Customer Service by phone in connection with the receipt of the vehicle, as part of which the ordered motor vehicle will be reserved with their User Account.

If the User fails to open the motor vehicle within the Reservation Period, the rent will automatically start subject to rental minute fee pricing.

Simultaneously with the confirmation of the User’s request, the Service Provider shall charge the User’s registered bank card with the pre-booking fee specified in Annex 3.

If the Service Provider is unable to deduct this amount from the User’s bank card, the User may not submit any further request until the Service Provider resolves the User from the prohibition.

7.1.3 Users can open the motor vehicle using the Mobile Application. The Individual Rental Agreement will enter into force upon the opening of the motor vehicle. The User will be obliged to verify that the vehicle registration plate number of the vehicle they have reserved in the Mobile Application and the vehicle registration plate number of the vehicle intended to be used correspond.

7.1.4 Users may take motor vehicles out of the LIMO Zone, however, the time spent there will count towards their rent, and Users will also be bound to pay the rental fee for this period. Users shall return the motor vehicles to the LIMO Zone by the end of the rent, but at the least before the expiry of the maximum duration per the Individual Rental Agreement (i.e. 72 hours). The Service Provider may periodically and occasionally (based on individual preliminary assessment) offer an extended maximum rental period for the Individual Rental Agreement, regarding which information will be provided on the www.mollimo.hu website. The Service Provider confirms the rental approval in advance via e-mail to the User. The Service Provider wishes to point out the fact that any such request by the User will solely be

confirmed and honoured if the load and utilisation of the Limo fleet will allow this at the time. Users may only use motor vehicles within the territory of Hungary, i.e. they are not permitted to cross the borders of Hungary. Where a User violates this obligation, that will be considered a grave breach of contract, and the Service Provider will also charge the User for the border crossing fee specified in Annex 3.

7.1.5 Users shall use the motor vehicle in compliance with the provisions of these GTC and the User Guide, as well as the information videos found on the Website. The information videos can be found on the www.mollimo.hu website, as well as on the MOL LIMO Facebook page (<https://www.facebook.com/mollimobudapest/>).

7.1.6 If needed, the Service Provider may withdraw the given motor vehicle from Service even during the term of an Individual Rental Agreement, in cooperation with the User in such an event.

7.1.7 In the course of using the rented motor vehicle, Users shall be obliged to comply with the rules set out in the traffic code.

7.1.8 The Service Provider ensures that the motor vehicles have mandatory motor vehicle liability insurance. The Service Provider is entitled, but not obliged, to take out motor insurance ('CASCO') for the vehicles. The Service Provider is not obliged to use any existing CASCO insurance, but is entitled to decide on this unilaterally.

7.1.9 Users must report any damage or error – especially but not exclusively in case of a puncture – or problem to the Service Provider without delay. Damage reports may be made by phone at any time during the rental term (by calling the Customer Service or using the Call Customer Service menu item in the APP). If a User fails to report any damage occurring during the rental term to the Service Provider but the next User indicates such damage to the Service Provider in line with the provisions of the GTC, or the competent staff of the Service Provider detects such damage, the damage shall be charged to the User during whose rental term the damage occurred. The Service Provider will have the right to charge the User for the cost of repairing a punctured tyre, as well as for the handling fee under Annex 3, in case the puncture was confirmed to have been caused by reasons attributable to the User.

7.1.10 Users may contact the Customer Service in the event of any problem arising while using the Service.

7.1.11 Users may only use the motor vehicle for private purposes, and may not offer any additional services (e.g.: taxi) using the same, and may not use the motor vehicle for any business activity.

7.1.12 Users shall be obliged to keep the motor vehicle clean. In order to facilitate maintaining the cleanliness of the motor vehicles, Users are obligated to submit a 'Cleanliness Report' to the Service Provider using the Mobile Application at the start of every Individual Rental Agreement. Should the report regarding the cleanliness of the motor vehicle, as sent to Customer Service, be substantiated (confirmed with photos and/or determined by the Service Provider upon inspecting the motor vehicle), the Service Provider will have the right to charge the User who missed to submit the 'Cleanliness Report' or rented the car in the period immediately preceding such notification for the cleaning fees.

7.1.13 Users may not transport any animals in the motor vehicle.

7.1.14 In addition to the User, the maximum number of persons who may be in the motor vehicle must correspond to the maximum number of passengers permissible for the respective motor vehicle per its conditions for use. Children may be transported only in line

7.1.15 Users may only transport articles in the motor vehicle whose transportation will not cause any damage whatsoever to the motor vehicle.

7.1.16 Smoking and consuming food or beverages is prohibited in the motor vehicle.

7.1.17 Users may not operate the motor vehicle under the influence of alcohol or drugs or any other medicinal products that may restrict their ability to drive.

7.1.18 In the course of using the motor vehicle and the Service, Users shall proceed with the utmost care that may be expected of them, and take all measures in the interest of protecting the motor vehicle.

7.1.19 Users may not modify the motor vehicle or have it modified, thus in particular, may not remove any decals from or make repairs or have repairs made to the motor vehicle.

7.1.20 The Service Provider will not be held liable for any articles left behind in the motor vehicle, however, it will provide assistance and cooperate in returning such to their owner. Owners will be able to claim articles found in the motor vehicle at the Service Provider's registered office after providing proper proof of their ownership. The owner's of the items with identifiable ownership by the Service Provider will be notified, but after 3 months the found items will not be stored by the Service Provider.

Upon the express request of the User, the Service Provider will – where this is possible and subject to service load – remove the motor vehicle concerned in the case of a lost item, and commit to collecting the lost item, and make it available for collection. In this case the Service Provider shall charge the User with the relevant Call-out fee according to Annex 3.

7.1.21 Users shall be obliged pay any road toll (motorway toll) for the motor vehicle when using a motorway with a Kia Picanto, Fiat 500, Volkswagen Up, Dacia Spring and motor vehicle outside the territory of Pest County. 7.1.23 If a User does not yet wish to terminate using the Service, only to suspend it (putting it on hold), they may – after parking the motor vehicle in compliance with regulations – suspend their trip by locking the motor vehicle through the Mobile Application or – if available – with the key. Users shall pay – a rental fee for the period of suspending the trip.

If the User parks the vehicle in the Limo zone, stops the engine and the additional conditions for terminating the rental are given according to clause 7.3.1 of the GTC, the Service Provider stops the rental automatically after 5 minutes for safety reasons and the rental is terminated. In order for the User to avoid the automatic termination of the trip by the Service Provider, the User can put the motor vehicle on hold in the Mobile Application or with the help of the car's ignition key (if available in the given car).

7.2 Terms of payment

7.2.1 Users may enter their debit/credit card details in the Mobile Application or on the Website at the time of user registration. The Service Provider shall charge fees related to the Service to the account associated with the User's debit/credit card specified as above.

In case of any discrepancies between the two versions, the Hungarian version shall prevail.

User by accepting the present GTC hereby declares and warrants that if the User gives debit/credit card details which are not on his/her own name, the User has the written consent of the owner of the debit/credit card that the owner of the debit/credit card consented to the use of his/her debit/credit card according to the terms of the present GTC and he/she has accepted the terms of this GTC.

The Service Provider may ask at any time from the User – by requesting the appropriate documents validating the identity of the owner of the debit/credit card – the validation of the owner of the credit/debit card and whether or not the User has appropriate approval/authorization from this person. Service Provider is entitled to check the debit/credit card data via personal reconciliation as well prior to the validation of the registration of the User.

Service Provider excludes its liability for the case if the User registers debit/credit card data which is not on the User's own name. The liability concerning the above shall be borne by the User.

7.2.2 Users may choose – when registering or later on – between using the Service on a monthly tariff basis (hereinafter: Monthly Plan) or without paying a monthly fee (hereinafter: One Off Fee) at their own discretion. The Framework Agreement will be concluded by taking this choice into account.

7.2.2.1 Pay monthly plan

The monthly fee plan means a 20% extra discount on the current prices of occasional use (rental fees, stopover fees, extra kilometer and daily fees) for rentals started and finished during the term of an active monthly fee subscription.

The User already having a registration may change to the monthly plan by ticking the monthly plan option in the settings of his/her User Account.

The Monthly Plan shall be valid from the day of choosing it starting from the minute of choosing until an indefinite duration. The date and exact time of choosing the monthly plan scheme will be the invoice turning date (hereinafter 'date of accounting'). The User may cancel the monthly fee plan from the next date of accounting by removing the monthly plan option checkmark in their User Account settings, and switching the plan back to incidental use. The User may do this any time during the monthly plan, but the monthly plan and the pricing will change accordingly from the next time of accounting to One Off Fee and to the pricing of One Off Fee. The User may request information about the time of accounting via e-mail and by phone from the Customer Service.

The monthly fee is due at the time of accounting of the User. The Service provider is entitled– if the User did not change to One Off Fee – to deduct the monthly fee on the day of accounting from the account of the User. The deduction is repeated in the time of accounting day, until the User does not change to One Off Fee construction.

Payment of the monthly fee is primarily possible with the registered credit/debit card of the User. The monthly fee cannot be covered from the possibly available LIMO balance of the User. The LIMO balance shall mean the amount which was credited to the User – according to the User's choice – based on previous complaints.

If the amount of the monthly fee is not deducted from the bank card provided by the User and is refused by the bank, the system will automatically unsubscribe the User from the monthly plan and then the User can use the Service based on incidental pricing until the

User re-subscribes to the monthly plan in the Application. The Service Provider does not send notification to the User about the unsuccessful deduction of the monthly fee.

7.2.2.2 One Off Fee

If the User wishes to use the service in One Off Fee construction, then monthly fee is not charged to the User, but the fee per minute of the Service is higher than in the monthly plan, based on the actual pricing of Service Provider.

7.2.3 The Service Provider shall immediately issue and send an electronic invoice to the User's e-mail address for the provided Services and other fees, using itemized invoicing. By accepting this General Terms of Contract, the User accepts and consents that the Service Provider will send invoices electronically.

7.2.4 The currency for settlement, invoicing and payment will be: HUF

7.2.5 Users must make sure that there are sufficient funds to enable the Service Provider to deduct the currently applicable tariff items each month from the User's account associated with their debit/credit card specified at all times.

7.2.6 In the event that the Service Provider is unable to deduct the currently applicable tariff items from the User's account when due, the Service Provider may suspend the User's User Account or even terminate the agreement with immediate effect, and send the User notification about that. The Service Provider will lift suspension of the User Account when the User has paid all tariff items in full. Should the User fall beyond 5 business days delay, the Service Provider will send dunning to the User.

If it is necessary to send late-payment notification to the User, in case of the first notification the Service Provider shall charge a fee of first late-payment notice as well in accordance with Annex 3 of these GTC.

If the User has not settled their debt after the first late-payment notification, the Service provider shall send them a late-payment notification again and charge the relevant fee of second and all further late-payment notices as well in accordance with Annex 3.

On the 5th day after the second payment request was sent, the Service Provider shall hand over the User's data for debit management and the Service Provider's contracted debit management company is attempting to collect the User's debt. In these cases, the Service Provider shall charge a procedural fee in addition to the amount of the debt in accordance with Annex 3 of the GTC. The Service Provider will terminate the Framework Contract for the Service with immediate effect with those Users whose case will have been transferred for receivables management two times due to debt. The Framework Contract for Carsharing shall be terminated no matter if the User pays or not the debt to the debit management company.

The Service Provider draws the User's attention to the fact that if the User initiates an illegitimate chargeback procedure at User's bank – notifying the bank that the amount that was deducted by the Service Provider are unauthorized debits, and the amount has been deducted correctly based on the Service Provider's GTC – the Service Provider is entitled to charge the User's account with the Chargeback fee in accordance with Annex 3.

7.2.7 Motor Vehicle Unlock Fee: The Motor Vehicle Unlock Fee (Unlock Fee) will be shown separately in the invoice sent after the termination of the Rental Agreement, on top of the other costs of the certain trip, according to Annex 3 of this GTC, thus increasing the total amount of the trip.

Users must pay the one-off Registration Fee at the time when the initiated registration takes place in accordance with 4.1. of these GTC

The Service Provider will withdraw the Registration Fee directly from the User's account at the time of the registration initiated by the User.

If the User fails to comply with the terms and conditions provided for hereunder, the Service Provider will have the right to refuse their registration. Where the Service Provider does not register the User, no Registration Fee will be deducted.

The Service Provider also draws the User's attention to the fact that the payment of the Registration Fee serves to compensate the costs incurred by the Service Provider in connection with the identification of the User, the verification of the data provided by the User and the establishment of the User's eligibility to conclude a Framework Contract, and therefore the Service Provider will not refund it.

7.2.9 Fees arising out of use not in conformity with the contract

In other cases, the Service Provider shall invoice to the User other fees arising out of noncontractual use set out in the Rates in the event that the events specified therein occur. 7.3.2 The User may only park the motor vehicle at locations within the LIMO Zone where parking is permitted for the respective motor vehicle, waiting is not prohibited or restricted, also having regard to the provisions of Section 7.4.3. If the User parked the motor vehicle in a place where the parking time is limited (parking is only allowed during a specific time interval), the User will be obliged to pay the total amount of the parking fine due to illegal parking and the administrative fee according to Annex 3.

The User will not be allowed to conclude using the Service – i.e. the trip by locking the motor vehicle – in a private parking place whether it is a location where parking is subject to a fee or free, except for the dedicated parking places specified in Annex 4. this are the designated parking areas indicated in Annex 4. and the underground car park(s) detailed in the list of extra zones on the Service Provider's website.

The Service Provider points out the fact that it will charge a drop-off fee in accordance with Section 7.2.11 F) if the User parks the vehicle in a place where this is not allowed (e.g. spots not complying with the traffic code, in a private parking facility, etc.) and the Service Provider is informed of this, resulting in the obligation for the Service Provider to remove the vehicle from the place.

In this case, the User is not exempted from paying the amount of the fine that may have already been imposed by the authority due to improper parking.

7.3.3 User shall duly park and lock the motor vehicle in the LIMO Zone if the User sees that the range of the motor vehicle (as evidenced by the instrument cluster display) is between 10 to 20 km. An infringement of this rule will be considered a grave breach of contract, and in addition, in case the User locks the motor vehicle with a remaining range of less than 10 kilometres, the User shall also pay – in addition to any potential fine and administrative fee due to improper parking under Section 7.3.2 – HUF 10000, i.e. ten thousand Hungarian forints in liquidated damages to the Service Provider.

If the User concludes their rent with a remaining range of less than 10 km and the Service Provider is unable to take the vehicle to the nearest MOL service station (to the nearest MOL Plugee charging station for electric Limo vehicles) due to that, the Service Provider will be entitled to charge the User for car transportation costs and an administrative fee further to Annex 3 to the GTC.

7.3.4 Users may fill up petrol (VW Up, Kia Picanto, Fiat 500, Toyota Yaris, Opel Astra, Mercedes A,) and diesel-powered motor vehicles (Opel Combo Cargo) with fuel corresponding to the type of the respective motor vehicle at Service Provider's cost using the fuel card found in the motor vehicle, as set forth in Section 7.7.5.

7.4 Other conditions for using the Service

7.4.1 The Service Provider will have the right to interrupt delivery of the Service temporarily, for the period of carrying out any necessary maintenance, update or other required work that cannot be delayed.

7.4.2 Users shall be required to use Motor Vehicles consistently with their intended purpose. The Service Provider will upload user guides and information videos on its website, make their technical and operating descriptions accessible by inserting links on its website, and make the said available at its Customer Service Desk.

7.4.3 Users will not need to pay parking fees in public areas inside the LIMO Zone within the administrative territory of Budapest, as these costs will be borne by the Service Provider. If a User leaves the LIMO Zone and parks the motor vehicle outside thereof, the fee for this – i.e. the Rental Fee and the parking fee valid for the respective zone – will be borne by the User.

If a User parks the motor vehicle – by suspending their trip and paying the Rendtal Fee at the same time – in a paying parking lot commissioned for that purpose, whether within or outside the LIMO Zone, any such fee will be borne by the User.

7.4.4 The Service Provider may refuse providing the Service and may interrupt Service delivery to a User with immediate effect if so required by a legal regulation or court decision, or if the Service is used in conflict with the GTC or without due authorisation, or otherwise unlawfully or improperly, having regard to the purpose of the Service.

This is an unofficial, working translation of the „MOL LIMO SZOLGÁLTATÁSÁNAK ÁLTALÁNOS SZERZŐDÉSI FELTÉTELEI ÉS ADATVÉDELMI TÁJÉKOZTATÓ” (MOL LIMO SERVICE GENERAL TERMS OF CONTRACT AND PRIVACY POLICY) for information purposes only. In case of any discrepancies between the two versions, the Hungarian version shall prevail.

7.4.5 The Service Provider shall be required to provide advance notification to Users in due time, through electronic means or otherwise in a manner deemed appropriate by the Service Provider, about the reason and duration of any outage in the Service.

7.4.6 It is prohibited to perform information technology manipulation or reproduction of the Mobile Application by reverse engineering or reverse modelling or in any other manner. Any violation of this prohibition shall be deemed to be a breach of agreement, and the User concerned shall be obliged to refund all damage arising out of this.

7.4.7 Users shall be required to send a ‘Damage Check’ in the form of a photo to the Service Provider via the Mobile Application after unlocking the passenger car, and thereby indicate to the Service Provider whether there is any damage to the passenger car. If the photos of the car’s damage are already existing in the App, it is enough for the User to confirm them. If the User does not send a „Damage report” to the Service Provider before unlocking the passenger car, but the subsequent User sends a „Damage report” to the Service Provider, the Service Provider shall consider that the damage was caused by the User who missed to send a „Damage report”. In this case, the Service Provider is entitled to charge the relevant repair costs and process fee of the given damage in accordance with Annex 3 of these GTC. If the User uploads a vehicle photo to the Mobile Application that violates law and/or is not about the vehicle, the Service Provider may charge the User for the fee payable in case of improper damage reports, as well as to terminate the Framework Agreement, even with immediate effect, on the basis of an individual assessment.

7.4.8 By accepting these GTC, Users expressly acknowledge that the right to rescission and termination according to Section 29 of Government Decree 45/2014 (II.26) is lost after the service has been fully completed. By opening the vehicle with the Mobile Application, by creating the first Individual Rental Contract, the User expressly agrees to the commencement of the provision of the Service.

7.4.9 User is obligated to upload 4 pictures of the motor vehicle from the Mobile Application within maximum 10 minutes after finishing their trip. The pictures shall be taken from the 4 corner of the motor vehicle clearly and visible showing the license plate number of the motor vehicle as indicated in Annex 7 of this GTC to be able to certify the condition of the motor vehicle.

Service Provider will draw attention to the fact that failing to provide an ‘End Trip Report’ will not exempt the user from the responsibility of the caused damage in the motor vehicle.

If the User does not submit an „End Trip Report” to the Service Provider after ending the Individual Rental Agreement as mentioned above, however the Service Provider becomes aware of a new damage on the motor vehicle, the Service Provider shall consider that the damage was caused by the User who missed to submit an „End Trip Report”. In this case, the Service Provider is entitled to charge the relevant repair costs and processing fee of the given damage in accordance with Annex 3 of this GTC.

If the photographs uploaded to the Mobile Application during an End Trip Report are violating laws, are non-real photographs, edited, manipulated in any other way, or have not been taken as described above, the Service Provider is entitled to charge the user by individual examination for the “Penalty in case of missing or uploading an irregular end trip report” in accordance with Annex 3 of this GTC and the Framework Agreement could be terminated with immediate effect.

7.7.4 Users shall be obliged to pay any road toll (motorway toll) for the motor vehicle when using a motorway with a Kia Picanto, Fiat 500, Volkswagen Up, Dacia Spring motor vehicle outside the territory of Pest County. The Service Provider ensures an annual, national e-Vignette (motorway toll sticker) for Mercedes A, Hyundai Kona Electric, BMW i3, Toyota Yaris, Opel Astra and Opel Combo Cargo motor vehicles.

7.6.5 If the range of the vehicle is reduced to such an extent that it is not sufficient to return to the Limo Zone, the User will have the right to refuel or recharge the vehicle.

Users may fill up petrol (VW Up, Kia Picanto, Fiat 500, Toyota Yaris, Opel Astra, Mercedes A: EVO 95) and diesel-powered motor vehicles (Opel Combo Cargo: EVO Diesel) with fuel corresponding to the type of the respective motor vehicle at Service Provider's cost using the Fuel Card found in the motor vehicles at any MOL service stations. .

The car must be filled with the appropriate (non-premium) fuel and the MOL fuel card in the glove compartment' card holder must be used to pay for the fuel in the shop. The card can only be used to purchase maingrade fuel (EVO-95, EVO-Diesel), it cannot be used to pay for premium fuel. The fuel card authorizes the User to make purchases solely at MOL Service Stations and only to buy EVO 95 type petrol or EVO Diesel type diesel fuel. The maximum daily limit of the fuel card is 40 000 HUF, i.e. the User can use this amount per day. The User shall be obliged to reimburse the fee for refuelling in excess of that amount, and the Service Provider may not be held liable for the same.

The fuel card may solely be used to refuel the Motor Vehicle for which it has been technically registered. The User is responsible for the loss or damage of the fuel card, he is obliged to compensate the Service Provider for the damage caused. In this case, Service provider is also entitled to charge the User the fee set out in Annex. 3 of this GTC. In the event of any misuse of the fuel card, the Service Provider will also have the right to charge the User for the fee specified in Annex 3.

The User shall check whether the fuel card -which is assigned to the LIMO vehicle- is in the glove compartment before starting a trip. If the card is not available in the vehicle the User must notify the Customer Service.

If it is established that the User did not refuel using fuel of the type prescribed for the motor vehicle, they shall be required to compensate the Service Provider for the resulting damage. The User can charge the electric motor vehicles at the Service Provider's cost at MOL Plugee electric charging service stations with the blue Plugee card in the glove compartment. The Service Provider can only start the charging free of charge at MOL Plugee's electric filling stations. Service provider can not provide a charging cable for charging.

The card must be touched to the card reader on the Plugee charging post and then the charging cable connected to the car. To stop the charging process, touch the card to the

card reader again. It is not possible to end the rental process at the charging point. If the User concludes rent at an electric charging station, i.e. leaves the motor vehicle there, the Service Provider will have the right to charge the User for the fee specified for that case in Annex 3.

7.6.6 It is the User's responsibility to rent a vehicle with a sufficient remaining range to return to the Limo zone via the Mobile Application in accordance with the provisions of these GTC - thus avoiding the possibility of the vehicle stopping on the way. Breach of this obligation constitutes a serious breach of contract. The Service Provider shall not be liable if the range of the car is reduced so much during the rental period that the User cannot bring the car back to the Limo zone.

7.6.7 If the User exceeds the maximum rental period specified in clause 7.1.4 without the permission of the Service Provider and does not return the vehicle to the Limo zone within the approved period, the Service Provider reserves the right to terminate the User's rental unilaterally at any time. The Service Provider shall also charge a fee for exceeding the maximum rental period set out in Annex 3.

7.6.8 The User will solely be eligible to use the Motor Vehicle in the territory of Hungary, and should they leave the territory of the country with the Motor Vehicle, the Service Provider will charge the User for the border-crossing fee specified in Annex 3, in accordance with Section 7.1.4.

7.6.9 The user can suspend the motor vehicle rental described in clause 7.1.23, if the User wants to pause the rental and does not want to finish it. If this is not done, the rental will be terminated by the Service Provider for security reasons as described in clause 7.1.23.

7.7 Usage of the extra zones

7.7.1 The Service Provider will also make what are referred to as extra zones available to the Users, to be accessible on a temporary or permanent basis. In the extra zones the User shall, depending on the zone, pay an 'Extra zone fee' as indicated in Annex 3. The extra zones and their respective zones fee can be recognised by the letter 'P' in the Mobile Application, and the list of extra zones with their applicable zone fees are available at: <https://www.mollimo.hu/legal>

7.7.2 When travelling to or from the extra zone, the User shall be required to apply the special rules set out in this Section 7.8 consistently with the other sections of these GTC.

7.7.3 Should the User begin or conclude their trip in an extra zone, the Service Provider will have the right to also charge the 'Extra zone fee', depending on the respective zone, that is set out in Annex 3 on top of the other costs of the trip, and for the User (both for starting or concluding trips in the territory of the zone), and said fee will be added to the amount of the trip right after its conclusion, thereby increasing the total amount due for the trip.

7.7.4 The User shall be required to use the grounds of extra zones, particularly, but without limitation, parking spaces designated for the Service Provider, as intended, to preserve their condition, and Users will be liable for any damage they will have been proven to have caused at extra zone grounds.

7.8. Smart pricing

Smart pricing is a dynamic pricing method whereby the minute and hourly rental rates for rental vehicles automatically change (favourably compared to the current minute and hourly rental rates in Annex 3) depending on the likelihood of a User renting the vehicle based on

its location. The variation in the rental fee will be based on the demand for the vehicle in question.

(High demand: the vehicle is expected to be rented within 2 hours. Medium demand: the vehicle is not expected to be hired within 2 hours but will be hired within 6 hours. Low demand: the vehicle is expected to be hired within 6 hours but not more than 12 hours. Very low demand: the vehicle is expected to be hired from the area in more than 12 hours.)

The Service Provider shall offer the User a price that is more favourable than the current rate, according to the demand categories.

The change does not apply to the start-up, daily and kilometre charges, which the User must pay in accordance with the current tariff.

7.9. Hourly rates

If the duration of the Individual Rental Contract (the time of renting the vehicle) reaches one of the time intervals specified in Annex 3 (the relevant time for 2, 3, 4, 5 hour packages), the User will automatically be charged the hourly rate for the corresponding category.

The hourly packages are valid until the User reaches the daily rate.

EXAMPLES calculated with minute rate and hourly package rate:

<p>Example 1. (renting a Dacia Spring) rental time: 67 minutes per minute charge: 85 Ft/minute unlock fee: 150 Ft Total: $(67 \cdot 85) + 150 = 5845$ Ft</p>	<p>Example 2. (renting a Dacia Spring) rental time: 98 minutes per minute charge: 85 Ft/minute 2-hour package (from 90 minutes to 120 minutes): 7700 Ft unlock fee: 150 Ft Total: $7700 + 150 = 7850$ Ft</p> <p>Hourly package without discount would be: $(85 \cdot 98) + 150 = 8480$ Ft</p> <p>For monthly subscription 20% discount: $(7700 \cdot 0,8) + 150 = 6310$ Ft Without the hourly package, the rental fee for a monthly subscription would be: $((85 \cdot 98) \cdot 0,8) + 150 = 6814$ Ft</p>
<p>Example 3. (renting a Dacia Spring) rental time: 122 minutes per minute charge: 85 Ft/minute 2-hour package (from 90 to 120 minutes): 7700 Ft 2 minutes: $2 \cdot 85$ Ft unlock fee: 150 Ft Total: $7700 + (2 \cdot 85) + 150 = 8020$ Ft</p>	<p>Example 4. (renting a Dacia Spring with 30% Smart pricing discount) rental time: 298 minutes Per minute charge: 85 Ft/minute 5-hour package (270 to 300 minutes): 13500 Ft unlock fee: 150 Ft SmartPricing: 30% = 0,3</p>

In respect of e-mails generated in line with the rules set out in the agreement, the Parties may not claim before any court or other authority that these fail to comply with the requirements of written documents issued on behalf of the Service Provider or the User, unless such an e-mail can be proven to have been used fraudulently or with some other unlawful intention.

10. Liability

10.1 The Service Provider’s Liability:

10.1.1 The Service Provider shall not be held liable for consequences arising out of a User’s breach of the provisions of these GTC, including without limitation due to events that may be associated with the improper use of the service or the provision of untrue data by the User, and with the User’s conduct and violation of the rules accepted by the User in the course of registration, etc.

10.1.2 The Service Provider shall be held liable solely for damage occurring due to the Service Provider’s gross negligence and/or wilful conduct, as follows.

10.1.3 The Service Provider shall not be held liable for any direct or indirect damage stemming from the use of the Service, unless it is the consequence of any gross negligence or wilful conduct attributable to the Service Provider.

10.1.4 The User may not be obliged to bear or refund any damage arising out of wilful conduct of the Service Provider and/or its representatives or staff in violation of the requirements set out in the GTC, and the Service Provider shall be liable for the occurrence of such damage.

10.1.5 The Service Provider will only be liable for any damage arising out of the grossly negligent conduct (omission) of the Service Provider and/or its representatives or staff if the occurrence of damage was foreseeable at the time of demonstrating such conduct (omission) and the conduct violates a material obligation stemming from the legal relationship existing between the User and the Service Provider.
For this purpose, all obligations assumed under the GTC and obligations whose performance is indispensable for the use of the Service by the User concerned will be deemed to be material. The limitation set out in this paragraph shall not be applicable to liability for culpable conduct that damages life and bodily health.

10.1.6 The Service Provider may not be obliged to bear or refund damage that may be attributed to circumstances outside its control if the occurrence of such damage was not foreseeable at the time of concluding the agreement.

10.1.7 The Service Provider may not be held liable for technical troubles, including without limitation any downtime in the internet or the GPS network.

10.2.1 Users shall be obliged to bear or be liable for refunding all damage arising out of any violation of the requirements set out in the GTC, thus, in particular, but without limitation, in the motor vehicle they use.

The user is released from liability if he can prove that the breach of contract was caused by a circumstance beyond his control, which was unforeseeable at the time of the conclusion of the contract, and that he could not have been expected to avoid the circumstance or remedy the damage.

10.2.2 Liability for damage to the motor vehicle

The User’s liability for damage caused to the vehicle is as follows: if these GTC do not provide otherwise, the User’s liability for damage caused to the motor vehicle is up to 10% of the total amount of damage, but a minimum of HUF 300,000, i.e. HUF three hundred thousand Hungarian forint per damage event.

The motor vehicle can be classified as a total loss in the following two cases by MOL Fleet Solutions Kft., the owner of the motor vehicle:

2. Technical total damage: if the User causes damages to the motor vehicle to such an extent that are technically beyond repair (e.g. parts of the vehicle are damaged that would be no longer be able to fulfill their operational or safety function after repair).

In case of technical or economic total damage the Service Provider shall undertake at its own expense the commission of an independent damage expert, who will review the amount of the damage and repair calculation.

Determining the damage caused by the User, the Service Provider shall take into account the following items:

In case of damage that does not qualify as technical total damage or economic total damage:

- the amount determined by the Service Provider based on the AUDATEX repair calculation or the actual repair invoice,
- transport costs that may arise as a result of an accident,
- the costs of possible legal proceedings (if the User does not accept the liability for damages, but the court establishes it as legally binding).

In case of technical or economic total damage:

- replacement value of the motor vehicle, i.e. the amount for which a motor vehicle of the same type, equipment, year, mileage, technical condition and legal status can be purchased in Hungary at the time of the damage event – maximum value calculated based on the Hungarian Eurotax catalog. This amount shall be reduced by the residual (wreckage) value of the motor vehicle. In case of CASCO claims settlement, the amount of damages not reimbursed by the Insurance company;

10.2.3 Users are liable for and shall warrant that they will use the Service only in a manner that fully complies with the requirements of as-intended use, as well as with statutory requirements and standards as may be effective at the time.

Thus especially – but not exclusively – the User, by using the Service, warrants that when using the Service he/she is in proper condition for driving and at the time of using the Service he/she possesses a valid driving license and to complete the rental of the vehicle in appropriate technical condition for the following Users.

In case of any discrepancies between the two versions, the Hungarian version shall prevail.

10.2.4 In the event that the User fails to check whether the motor vehicle they rent is suitable for as-intended use, or if they notice that the motor vehicle is unfit for its intended use – i.e. particularly, but without limitation, that it has a puncture tyre –, but they nevertheless take it and use it, then the User will bear all risks arising from such unsuitability for intended use and will be liable for any damage arising from the motor vehicle being unsuitable for its intended use. The Service Provider will have the right to charge the User for the cost of repairing a punctured tyre, as well as for the handling fee under Annex 3, in case the puncture was confirmed to have been caused by reasons attributable to the User.

10.2.5 Users shall be required to notify the Service Provider, via the Mobile Application, about information implying that the use of the motor vehicle by the previous User was in violation of the GTC, as well as any signs they might observe which suggest that the motor vehicle could have been vandalized by third parties. If proven, the Service Provider will take the necessary measures.

10.2.6 Users shall be liable for and shall warrant the proper use of the Mobile Application and the Website, in line with the GTC.

Users shall be liable for all damage arising out of improper use.

Users shall ensure the privacy of their User names and Passwords, comply with the provisions concerning notices, and shall warrant that the data provided by them are true.

The User may submit a modification request to the Service Provider no more than once per day on the registered data, which the Service Provider shall handle within 24 hours after the arrival of the request.

10.2.7 All costs, damage and other detrimental legal consequences arising out of termination applied by the Service Provider in the event of any violation of the requirements of the GTC shall be borne solely by the User who violated the GTC.

10.2.8 Users may not permit third parties to dispose over their User Account or drive the rented motor vehicle. The motor vehicle may be driven solely by the User who concluded the Individual Rental Agreement. Users will be liable for all damage arising out of transferring disposal over their User Account or allowing others to drive the rented motor vehicle, and shall also be liable for paying the fee specified in Annex 3.

10.2.11 Users must immediately notify the Service Provider if their driving licence is withdrawn or becomes subject to any restriction. If a User's driving licence is withdrawn or a court or competent authority imposes a prohibition of driving on a User, the Service Provider shall suspend that User's User Account for the duration of the effect of such measure.

10.2.12 Users must lock and park the motor vehicle in the LIMO Zone in compliance with regulations when the maximum 72-hour rental period under the Individual Rental Agreement expires. Users shall be required to pay the Rental Fee and will be held liable for damages until properly locking inside the LIMO Zone.

10.2.13 In the event that the removal of the motor vehicle or transporting it back to the Service Area becomes warranted by reason of its damage or defect, or as a consequence of the User's conduct in violation of traffic rules, or if attributable to the expiry of the Individual Rental Agreement outside the LIMO Zone for some reason, the User concerned shall be obliged to recompense the Service Provider for the Transportation Cost and administrative fee.

10.2.14 Users shall be required to pay any fine, fee, supplementary fee or other cost (hereinafter 'fine') imposed in connection with the violation of traffic rules. The Service Provider will be eligible to charge the User for the amount of (the) fine(s) after taking delivery

of the applicable decision, resolution, notice, dunning or other document imposing the fine payment obligation.

The Service Provider will also have the right to charge the User for a fine and will not be able to take into consideration the User’s subsequent report filed when the Service Provider has already charged the fine for improper parking to the User, whereby they were unable to park the motor vehicle in another, appropriate location, because the user closed their trip with a range of less than 20 km and the motor vehicle did no longer appear in the Mobile Application among the available vehicles for hire. The fact that the User initially not parked the passenger car properly, forms the basis of charging of the fine to the User. The administration process regarding the fine depends on the proceedings of the competent authority.

10.2.15 Users shall notify the police and the Service Provider immediately if the motor vehicle is involved in a road accident. Users must wait for the police forces and the team member of Service Provider on the spot. The event, the circumstances of the event and the damage incurred shall be detailed in minutes. The Users must fill out the insurance claim statement on site at the road accident. If the User leaves the road accident’s location without notifying the Service Provider or for a reason that is not possible, the User shall fill out the form within 5 calendar days from receiving the form from the Service Provider. The Users shall send back to the Service Provider the insurance claim statement in a pre-agreed form, with the signature of the User. If the User leaves the road accident’s location or fails to return the completed and signed damage claim form to the Service Provider as specified in these GTC and agreed in advance, they shall also be required to pay the ‘Fee payable for causing delays in insurance related case processing’ further to Annex 3.

10.2.16 If the person who caused damage to the motor vehicle during the term of the Individual Rental Agreement concluded by the User settles damage payment with the respective User, then that User shall pay the same to the Service Provider as damages, by wire transfer. Payment of these damages to the Service Provider will not mean that the Service Provider may not claim damage incurred in excess of that amount from that User.

11. Termination of Framework Agreement

11.1 Users may request deletion of their User Account and thereby terminate the Framework Agreement in writing, without having to give reasons. The Framework Agreement shall be terminated with the deletion of the User Account.

The other party shall be notified of termination by e-mail or in writing by registered mail with advice of delivery.

The Service Provider may terminate the Framework Agreement in writing, with a notice period of 30 days, without having to give reasons. The Framework Agreement shall be terminated when the notice period expires.

The other party shall be notified of termination by e-mail or in writing by registered mail with advice of delivery.

The Service Provider shall delete the User’s User Account on the date when the Framework Agreement is terminated.

11.2 In the event of the occurrence of events set out in this paragraph, the Service Provider may terminate the Framework Agreement even with immediate effect, without having to pay damages (hereinafter: immediate termination):

- a) Any statement or conduct/action by the User infringes the Service Provider’s good reputation or business integrity,
- b) When using the service, the User shall comply with 10.2.2. demonstrates the behavior set out in point
- c) The User violates any obligation set out in the agreement (in these GTC), especially, but not exclusively, if the User provides incorrect information about the User Account.

In case of termination for cause by the Service Provider, the Parties shall settle accounts with each other regarding Services rendered until the effective date of termination, including the breach of agreement and its consequences.

In the event of termination for cause, the Service Provider will reserve the right to assert its rights stemming from the breach of agreement, including its right to the compensation of damages.

11.3 The Service Provider will notify the User concerned about immediate termination in writing, in e-mail or by registered mail with advice of delivery. The notice mentioned in this paragraph shall include the name of the User concerned, the reason for termination, the provision of the GTC violated by the User, a short description of the breaching conduct, and the date when the Framework Agreement will be terminated.

11.4 In the event of termination for cause by the Service Provider, all Individual Rental Agreements concluded on the basis of the Framework Agreement will expire as of the time when the termination is communicated, the Service Provider will delete the User’s User Account and – based on the Service Provider’s individual decision – may put the User on the List of Users in Default.

A User may be placed on the List of Contract Breaker Users if he/she has breached the provisions of these GTC and, as a result, the Service Provider has suspended his/her User Account and/or terminated the Framework Agreement with him/her by extraordinary termination.

11.5 The User may request to be removed from the List of Contract Breaker Users by a written letter sent to the registered address of the Service Provider. The Service Provider shall notify the User in writing within thirty (30) days about the decision. The Service Provider is not obliged to give reasons for its decision.

A User who has been placed by the Service Provider on the List of Contract Breaker Users, in particular, but not exclusively, for the reasons indicated below, may not conclude a new Framework Contract with the Service Provider:

- *committing a serious infringement of traffic rules, which has been the subject of a final administrative decision*
- *using the vehicle in connection with an infringement or a crime*

- *modifying the vehicle without authorisation (e.g. removing accessories, parts, stickers)*
- *intentionally or with serious negligence damaging the vehicle*
- *creating one or more User Accounts using various false data*
- *failed to settle a debt and has been transferred for debt collection.*

11.6 In the event that a User requests that the Service Provider delete his data, the agreement will be terminated on the day when the request for data deletion is received.

11.7 Notices of termination sent by e-mail according to this section shall be governed by the provisions of section 9 “Notices sent electronically”.

12. Complaints handling, customer service

12.1 Users may contact the Customer Service with their complaints, orally or in writing, using the Customer Service’s mailing or e-mail address or its telephone number.

12.2 If Users submit complaints to the Customer Service orally, the Customer Service shall record the complaint in minutes and hand over a copy of the minutes to the User in person or, in the case of complaints submitted by phone, deliver it to the User at the time of sending the answer to the complaint.
